

PREZI

What is Prezi?

Prezi is a web-based presentation and storytelling tool that uses a single canvas instead of traditional slides. Text, images, videos and other presentation objects are placed on the infinite canvas and grouped together in frames. The canvas allows you to create non-linear presentation that allow you to zoom in and out of a visual map.

How will Prezi help my learning?

- Prezi will assist you in creating digital presentations for assignments/assessments
- It will allow you to use a variety of media in different file formats
- It can be used for a live or online presentation

You can use Prezi to:

- Create and present ideas on a large canvas like a whiteboard
- Use ideas, images and videos to tell your story

What resources do I need?

- Computer
- Internet access
- Files, web links, resources to include in your digital presentation

Where do I find out more?

Go to <http://prezi.com/> for interactive information on using the package

How do I set up an account?

How do I use Prezi?

Go to the Getting Started link on the Prezi website and follow the tutorials. Have fun!!

The screenshot shows a web browser window displaying the Prezi Learn Center. The page features a search bar, a navigation menu, and a main content area. A video player is embedded in the content area, showing a tutorial on Prezi basics. The video player has a play button and a progress bar. Below the video player, there is a caption: "For a step-by-step tutorial on how to use basic tools in Prezi, watch the video above and browse through the 6 steps below. In just a few minutes, you'll be set to create a stunning presentation!"
